-We received this feedback and reviewed it at the Steering Committee meeting. All committees of WAVE are volunteer based, young professionals giving their time to the organization. Given that, we don't want to promise weekly updates due to time availability, however we will be sending monthly newsletters to members via email verses the current quarterly newsletters we are sending. These newsletters will include the months activity and progression of WAVE. We will also be pushing out reminder emails of upcoming events when they are approaching and updating Facebook with any community events we catch wind of that we can push out.

-Our PD/SC has been exploring Professional Development opportunities to bring to our members. This may be in a form of business seminars, educational speakers/presenters etc. They are exploring resources within our community to bring this availability to our members asap. Once we are able to lock in a few Professional Development opportunities, we will be communicating with members via email about the opportunity and we hope you take advantage of any and all future opportunities!

MMYP will have several community involvement opportunities to offer members in the future. What types of community events would you be

-WAVE gets offered many community event participation opportunities, we mainly conducted this survey to see what our members wanted to be a part of. We didn't want to fill up your inbox with any and every offer, so these results are extremely helpful! This provided us with the information that many of you are interested in it all! Charity, Concerts, and Health and Wellness were the top three events/activities that you were all interested. We will be pushing out these opportunities via the monthly newsletter and Facebook to members and public. We will also be filtering through the opportunities to push out any community educational opportunities, corporate sponsor events and fundraising opportunities based on the survey results.

For the events/activities that you showed interest in above, are you more interested in attending or volunteering for the event/activity?		
Answer Options	Response Percent	Response Count
Volunteer	50.0%	20
Attend	50.0%	20
